Dear Kathleen:

This letter constitutes the request of the Scrap Dealer Group¹ pursuant to 40 C.F.R. § 300.415(n)(4)(iii) for an initial 15-day extension of the public comment period on Region III's draft Engineering Evaluation/Costs Analysis ("EE/CA") for the Metcoa Site. As we read this NCP provision, this extension will now be deemed automatically effective. Accordingly, comments will currently be due no earlier than December 29, 1995.

As you know, the Group has requested certain data developed by Region III that are critical to proceeding with a thorough review and assessment of the draft EE/CA. If it proves to be necessary, the Group will timely submit by December 29 a request for any further extension needed beyond the minimum 15-day period provided by § 300.415(n)(4)(iii).

Thank you for your attention to this extension request.

Sincerely yours,

Howard J. Wein
